Explanation of Symbols used :-- Cases ; D. -- Deaths.

Naw Dalhi-2 (India);

The 24th November, 1952.

K. MITRA,

for Registrar General, India.

# NATIONAL **SAVINGS**

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of moome-tex and super-tex and is not taken into account, in arriving at the total taxable income

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simia.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 31% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at

Bombay Calcutta, Delhi & Madras, and Branches of The Imperial

Bank of India in other places transacting treasury business. Full particulars obtainable from District Organisers of the Small Savings Sci Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simila.

<sup>•</sup> In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

<sup>†</sup> Figures not available.

Explanation of symbols used :—B.=Births; B.R.=Birth Rate; C.=Cholera; S.=Smallpox; P.=Plague; F.=Fevers; D.D.=Dysentery and Diarrhoea; R.D.=Respiratory Diseases; M.D.=Maternal Deaths; D.R.=Death Rate; I.D.=Infantife Deaths (included in total deaths).

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 1st November, 1952—contd.

<sup>\*</sup>In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

<sup>†</sup>Figures not available.

Explanation of symbols used:—B.—Births; B.R.—Birth Rate; C.—Cholera; S.—Smallpox P.—Plaque; F.—Fevers; D.D.—Dy-sentery and Diarrhoea; R.D.—Respiratory Diseases; M.D.—Maternal Deaths; D.R.—Death Rate; L.D.—Infantile Deaths (included in total deaths).

Big.hs and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 1st November, 1952—contd.

<sup>\*</sup> In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

<sup>†</sup> Figures not available.

Explanation of symbols used :—B.=Births; B.R.=Birth Rate; C.=Cholera; S.=Smallpox; P.=Plague; F.=Fevers; D.D.=Dyn sentery and Diarrhoea; R.D.=Respiratory Diseases; M.D.=Maternul Doaths; D.R.=Douth Rate; I D.=Infantile Deaths (included i total deaths).

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 1st November 1952—contd.

<sup>\*</sup> In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

Explanation of symbols used:—B.=Births; B.R.=Birth Rate; C.=Cholera; S.=Smallpox; P.=Plague; F.=Fevers; D.D.=Dysentery and Diarrhoea; R.D.=Respiratory Diseases; M.D.=Maternal Deaths; D.R.=Death Rate; I.D.=Infantile Deaths (included in total deaths).

#### REMARKS

The figures of births and deaths shown in this statement for week ending the 1st November, 1952, relate to 185 towns with an estimated population of 24,276 thousands. The total number of towns is 281 and their population is 34,764 thousands. Thus 66% of the total number of towns representing 70% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 18,644 and 7,789 representing birth and death rates of 39.9 and 16.7 per thousand of population respectively.

(A) States (Farts A & C).—The data here relate to 158 towns with an estimated population of 20,940 thousands. Information about Bihar and West Bengal could not be included. The total number of towns is 235 and their ropulation is 29,570 thousands. Thus 67% of the total number of towns representing 71% of the total population is covered. The numbers of

births and deaths recorded in these towns were 16,750 and 7,040 representing birth and death rates of 41.6 and 17.5 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 27 towns with an estimated population of 3,336 thousands. The total number of towns is 46 and their population is 5,194 thousands. Thus 59% of the total number of towns representing 64% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,894 and 749 representing birth and death rates of 29.5 and 11.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
